

CSHCS ALERT #7-2013 - ALERT! Updates to the CSHCS Guidance Manual
Mon 7/29/2013

Attached you will find the latest updates to the Guidance Manual.

In addition, we have replaced the examples of Plans of Care (POC) that were posted on our website before with a single POC. It is not required at this time to use this POC but it is strongly encouraged. It is important for the same information as on this POC be in the same order on the POC that you use for ease of review by others. You can of course always add items that you find useful but are not found on this document.

NOTE: There is a known issue when trying to open documents with a .docx extension in Internet Explorer 8. If a Word document attempts to download/open as a .zip file:

- Right click on the link and choose "Save Target As." When prompted for the location of the save, remove the .zip from the filename and replace with the .docx extension, then Save. This will keep it from being saved as a .zip file.

Please contact Karla McCandless with any questions or concerns. Thanks.
